Installation Qualifications listed below

Unloading and distribution of materials cost is based upon having unencumbered access to a material hoist or an interior elevator. Unloading is to occur within a reasonable distance of hoist area. There will be no carrying of materials or tools up steps. This work is to occur during normal working hours.
Price for installation is based upon having access to an entire floor at a time. No partial floor installation
Expenses for projects based upon a specific time duration. If install extends beyond duration, additional expenses will be expected to be covered
Travel, mobilization cost are calculated for specific number of mobilizations as listed on quote.
If project dictates installation crews pull off project, additional costs will be expected to be covered
