			Subtotal:	\$1,800.00
			Taxes:	\$0.00
			Total Price:	\$1,800.00

Comments or Special Instructions
Please proceed with the TAB Accordingly, FYI: There are still some EF's not energized yet with no information on when these will be done by electrician.. The 2 Captivaire RTU's are running on construction Mode which means O/A Damper is wide open (Until final start up occurs) , the final Factory Startup is not done yet.
