Thank you for allowing National TAB this opportunity to offer Indoor Air Quality (IAQ) Solutions and the RGF PHI multi-zone Air purification systems.

The impact of harmful bacteria, mold, airborne allergens have been a primary battle for indoor air quality and health. National TAB has developed different IAQ & Renew programs to ensure optimum results to lower the degree to which the HVAC can spread of harmful airborne pathogens. The current outbreak of Coronavirus has stimulated the need to protect employees and the public by ensuring the IAQ can scrub to levels beyond what current filters and quarterly (non-continuous) cleaning can provide. This proposed solution for your application is to install RGF's PHI Air Purification systems. In addition, the PHI technology provides an extended Kill radius downstream of the device to continue to disinfect the indoor air and contact surfaces.

Below is our price for the RGF PHI Technology Air Purification Systems. **INSTALLATION EXCLUDED**

Name	Quantity	Amount
PKG14 (460V)	2	\$1,161.08

**Total (less tax): \$1,161.08**  
Estimated tax: \$70.86

NOTE: Sales tax (if applicable) is estimated based on location sales tax rates and actual tax to be billed and presented with final invoice. If no tax or tax exempt, deduct (requires tax exempt form). Price includes freight to get product to facility. Lead times from the time of order

**National TAB, LLC has agreed with the client for a set fee to perform specific task. Work to be performed 1st shift only.**
