Thank you for allowing National TAB this opportunity to offer Indoor Air Quality (IAQ) Solutions and the RGF PHI multi-zone Air purification systems.

The impact of harmful bacteria, mold, airborne allergens have been a primary battle for indoor air quality and health. National TAB has developed different IAQ & Renew programs to ensure optimum results to lower the degree to which the HVAC can spread of harmful airborne pathogens. The current outbreak of Coronavirus has stimulated the need to protect employees and the public by ensuring the IAQ can scrub to levels beyond what current filters and quarterly (non-continuous) cleaning can provide. This proposed solution for your application is to install RGF's PHI Air Purification systems. In addition, the PHI technology provides an extended Kill radius downstream of the device to continue to disinfect the indoor air and contact surfaces.

Below is our price to provide and install the RGF PHI Technology Air Purification Systems.
