We are pleased to offer our Pre-Design Evaluation for your existing store. Our predesigns have 3 levels to the extent of work performed or needed. The three levels consist of Silver, Gold, or Platinum level. Based on discussions with the client the Platinum level has been selected and that option only is presented below.

PLATINUM LEVEL:

-Includes airflow readings of each unit to include:

- a. Total supply air for all AHU's/RTU's
- b. Total Outside air for units (set to min position) for all AHU's/RTU's
- c. Total exhaust flow rates for all exhaust fans & hoods
- d. Check fan motor voltage and amps
- e. Record area served/model number/serial
- f. Check sheave adjustment
- g. Inspect evaporator and condenser coils
- h. Check in-unit electrical connections
- i. Check economizer operation
- j. Roof layout as needed & asset picture
- k. Interview Manager & Employees to document any issues or complaints they are having about the heating & cooling of the occupied space.
- l. Provide Full As-Built drawings for your entire HVAC and Ventilation system of all existing systems to include unit locations in respect to space, duct layout, duct size of main trunkline, air device locations, and any above ceiling deficiencies. This can be used for your engineer and facilities team to facilitate design and help make decisions of what needs to be replaced or kept in place.
