Thank you for allowing National TAB this opportunity to bid on the testing and balancing of this project. The following is our understanding of the scope of work and the associated cost.

TAB Scope:

Customer has air balance and humidity concerns inside the restaurant. Scope is to perform a TAB on the equipment and also ensure equipment humidity controls are installed and set up per Culver's requirements.

TAB Scope:

- RTU's – total supply and outside air only
- EF's
- MUA (if applicable)
- Hoods
- Smoke capture and containment test
- Building pressure test
- Programming thermostats for schedule
- Setting up RTU's per Culver's requirements

PROJECT MANAGEMENT & REPORTING: Our reporting and project management system is a live, streaming system powered by **FaciliBuild™ that coordinates our job schedule, interactively, with other networked trade participants and includes seamless file distribution, issue tracking and resolution, in project messaging, and a reporting system that has dynamic (not static) database. When we create a report, we create it with active equipment assets that allows the owner to import our results and continue its use for live maintenance recording. This allows you, at any time, to pull up the full history of your building's complete asset list. This system of assets can belong to the owner for the life of the equipment and your facility.*

This proposal includes a written report to be submitted upon completion of all work.

PRICE PER LOCATION = \$2200
