Vineland, NJ 08360

Description
air balancing Proposal based on drawing M600 dated 6/30/23 (1 drawing)
We propose to perform the above outlined work for the amount of \$2,000.00

Exclusions:
If TAB includes existing systems, price assumes all existing is operational, additional visit due to existing deficiencies not included in price.
The following items are excluded unless specifically noted: sheave changes, balancing of outlets without design numbers, prereadings, duct leakage testing, temperatures, steam, fuel oil, space pressurization, comfort balancing, commissioning support, balancing to tolerances other than +/-10%, non ducted return RGDs, phasing, reports for TCO
Proposal assumes all work accessible; scaffolding and lifts excluded.
All systems assumed to be operational; additional visits due to inoperable systems will incur additional charges. Additional visits to be billed at the rate of \$1,400.00 per day.
Net 30 days.
